This brief guide is intended to provide health information. It does not imply recommendation of any treatment and should not be substituted for the advice of a health care provider.

To support the provision of health information at Trillium Health Centre, we have developed "HealthFinders" on a variety of health topics. These serve as starting points on your quest for health information, and represent just a selection of our resources. HealthFinders are also available through our web site at <http://www.trilliumhealthcentre.org/health>

Stroke

INTERNET SITES

Heart and Stroke Foundation of Canada

<http://www.heartandstroke.ca>

Heart and Stroke Foundation of Canada plays a leadership role in the study, prevention and reduction of disability and death from heart disease and stroke in Canada. Click on the link for Stroke in the left hand column to find sections devoted to prevention, treatment, rehabilitation, and many other aspects of this often disabling event.

Stroke Recovery Canada

<http://www.strokerecoverycanada.com>

Stroke Recovery Canada is a national service offering post-recovery support, education and programs for stroke survivors, their families and health care providers. The website includes articles, fact sheets, a list of peer support groups across the country, and a comprehensive list of links to other internet resources on the topic.

Prevent Stroke

<http://www.preventstroke.ca/en/index.php>

This website was the Prevent Stroke Team, under the auspices of the Health Nexus (formerly the Ontario Prevention Clearinghouse) and the Ontario Ministry of Health and Long Term Care. The site focuses on stroke prevention and provides extensive information on how to lower or eliminate risk factors by lifestyle changes and other methods. The different types of strokes and their effects are also clearly explained, along with illustrative case histories.

National Stroke Association

<http://www.stroke.org>

This is a U.S. site which provides guidance on

prevention, treatment and rehabilitation. It makes available a series of clearly written fact sheets on a variety of relevant topics, as well as a free bi-monthly magazine, *Stroke Smart*. Overall the site is a good resource for learning about stroke and its after effects in straightforward language.

BOOKS

Stroke by Richard I. Lindley. Oxford, UK: Oxford University Press, 2008

This title is one of the Facts series, which offer practical advice about a condition in a clear and accessible style, written by leading authorities in the field. It features explanations of the different types of stroke and their causes, treatment options, and rehabilitation. It also describes lifestyle changes which can help prevent stroke in the first place.
