

Backgrounder - Trillium Health Centre

Our Mission: At Trillium Health Centre, we anticipate and respond to the changing unique and diverse health care needs of our patients and communities.

Our Vision: Every day, we will positively impact the lives of our patients and their families by providing the best care right here in our community.

Our Values: Excellence, Diversity, Leadership, Teamwork, Learning, Integrity

About Trillium Health Centre

Trillium Health Centre is one of Canada's largest academically-affiliated, specialty hospitals providing care to over one million residents in Mississauga, west Toronto and the surrounding regions.

Trillium is the regional lead in specialized programs for cardiac, hepato-pancreatico-biliary (HPB), neurosciences, orthopaedics, palliative, stroke and vascular care as well as seniors' health, mental health and sexual assault/domestic violence services.

Trillium supports the work of more than 6,000 staff, physicians, nurses and volunteers who handle over 760,000 patients visits to our two locations each year.

Trillium's Mississauga location, a 714-bed acute care inpatient facility, features a 24-hour emergency care centre, surgical centre, family care centre, fracture clinic, advanced cardiac care, stroke centre, and one of the largest birthing suites in the region.

Trillium's West Toronto location focuses on outpatient programs including a 14-hour-a-day urgent care centre, rehabilitation services, day surgery centre, surgical clinics, cancer detection and treatment centre, spine centre, women's health centre, and comprehensive seniors' and mental health services. The Mississauga Academy of Medicine (opening August 2011) will be a partnership between the Faculty of Medicine at the University of Toronto, University of Toronto Mississauga, The Credit Valley Hospital and Trillium Health Centre.

Trillium is recognized by Accreditation Canada, National Quality Institute and Ontario Health Quality Council for providing safe, high quality health care and leadership in creating a healthy workplace.
